SUMMARY

Motivated MCA student at Amal Jyothi College of Engineering (BCA Graduate from Saintgits College of Applied Science). Winner of i_hack 4.0 Hackathon at Saintgits College. Experienced in software & mobile game development, audio MIR applications, ML web apps, and predictive data models. Musician (Keyboardist & Cajón percussionist) and visual storyteller.

EDUCATION

Master of Computer Applications (MCA) Amal Jyothi College of Engineering, Kanjirappally	2026 – Present
Bachelor of Computer Application (BCA) – CGPA: 7.07 Saintgits College of Applied Science, Kottayam ■ Winner / 1st Rank Champion — i_hack 4.0 Hackathon	2023 – 2026
Higher Secondary Education – Score: 83.9% St George HSS, Muttar	2021 – 2023
10th Standard (SSLC) – Score: Full A+ St George HSS, Muttar	2020 – 2021

PROJECTS

- Alexa Player — Smart Audio Analyzer & Keyboard Guide** (github.com/ALEX2k5-777/alexa-player)
Developed an intelligent audio MIR web app that extracts song BPM, time signature, and chord progressions with a 3D interactive virtual piano keyboard visualizer.
- VibePlayer — Media & Audio Player Application** (github.com/ALEX2k5-777/vibeplayer)
Developed a modern audio player with playlist management, custom audio visualizer, and multi-format playback controls.
- Air Quality Index (AQI) Prediction Web App — Akira Software Solutions** (github.com/ALEX2k5-777/Air-Quality-Model-)
Developed an ML web application to predict AQI using Python, data preprocessing, and Streamlit UI.
- AGRIGO — Agricultural Management Web App**
Developed a dynamic agricultural management platform with real-time weather APIs and multi-role authentication.
- Fly-Vezhambal — Android 2D Arcade Game App** (github.com/ALEX2k5-777/fly-vezhambal)
Developed an Android 2D arcade game application inspired by Flappy Bird, featuring custom player physics, collision detection, and high score system.

TECHNICAL SKILLS & ACHIEVEMENTS

- **Programming Languages:** Python, Java, C++, JavaScript, HTML5/CSS3
- **Software & Game Dev:** Audio MIR & DSP (Librosa, Web Audio API), Android 2D Game Dev, Streamlit, Predictive Modeling
- **Soft Skills:** Teamwork & Collaboration, Responsibility, Self Learner, Problem Solving
- **Hackathon Achievement:** ■ Winner of i_hack 4.0 @ Saintgits College

CREATIVE PURSUITS & DIFFERENTIATORS

- **Music:** Keyboardist & Cajón / Clapbox acoustic percussionist (directly inspired the development of Alexa Player audio tools)
- **Photography:** Landscape & visual storyteller ([instagram.com/click_by_alex](https://www.instagram.com/click_by_alex))

CERTIFICATIONS

- **Build a Machine Learning Web App with Streamlit & Python** — Coursera
- **Introduction to Artificial Intelligence (AI)** — IBM | **Basics of Python** — Infosys Springboard
