SUMMARY

Motivated MCA student at Amal Jyothi College of Engineering (BCA Graduate from Saintgits College of Applied Science) with a strong interest in AI and Machine Learning. Possesses hands-on experience in developing and deploying machine learning-based web applications, audio apps, and predictive models.

EDUCATION

Master of Computer Applications (MCA) Amal Jyothi College of Engineering, Kanjirappally	2026 – Present
Bachelor of Computer Application (BCA) – CGPA: 7.07 Saintgits College of Applied Science, Kottayam	2023 – 2026
Higher Secondary Education – Score: 83.9% St George HSS, Muttar	2021 – 2023
10th Standard (SSLC) – Score: Full A+ St George HSS, Muttar	2020 – 2021

PROJECTS

- VibePlayer — Media & Audio Player Application (github.com/ALEX2k5-777/vibeplayer)**
Developed a modern audio player with playlist management, custom audio visualizer, and multi-format playback controls.
- Air Quality Index (AQI) Prediction Web App — Akira Software Solutions (github.com/ALEX2k5-777/Air-Quality-Model-)**
Developed an ML web application to predict AQI using Python, data preprocessing, and Streamlit UI.
- AGRIGO — Agricultural Management Web App**
Developed a dynamic agricultural management platform with real-time weather APIs and multi-role authentication.
- Fly-Vezhambal — Web Application (github.com/ALEX2k5-777/fly-vezhambal)**
Developed an interactive web application featuring custom UI design and responsive web integration.

TECHNICAL SKILLS & ACHIEVEMENTS

- Programming Languages:** Python, Java, C++, JavaScript, HTML5/CSS3
- AI & Machine Learning:** Streamlit, Predictive Modeling, Data Preprocessing, Weather APIs
- Soft Skills:** Teamwork & Collaboration, Responsibility, Self Learner, Problem Solving
- Hackathon Achievement:** ■ Winner of i_hack 4.0 (College Level)

CERTIFICATIONS

- Build a Machine Learning Web App with Streamlit & Python** — Coursera
- Introduction to Artificial Intelligence (AI)** — IBM
- Basics of Python** — Infosys Springboard
